**AMENDMENTS TO THE SPECIFICATION:**

Please replace paragraph [0007] with the following rewritten paragraph:

B1  
--[0007] Referring to FIG. 4 3, the present invention overcomes the disadvantages of the prior art approaches by providing a differential casing with a chamber 16, having an axle centerline 18 and defined by at least one spherical surface 26a and at least one opposing surface 27a, wherein the centerpoint of the spherical surface 50 is substantially collinear with the axle centerline 18 and is offset from the centerpoint 54 of the chamber 16 some distance along the axle centerline 18 in a direction away from the opposing surface 27a.--
